

Children should be seen and not heard

Handwriting practice lines for copying the text above.

www.VictorianSchool.co.uk

How to complete this Copybook page

The Victorian copybook was used for handwriting practice. The sample line should be copied on all the subsequent lines until the page is full of absolutely identical lines. This would have been done using a dip pen, but you might want to use a pencil instead.

Note to teachers: You may freely copy this page as long as you do not remove our web address.
